

robin_hood::hash_int

```
graph LR; A[robin_hood::hash_int] --> B[robin_hood::detail::rotr]
```

A diagram showing a pointer relationship between two C++ identifiers. On the left, a gray rectangular box contains the text 'robin_hood::hash_int'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'robin_hood::detail::rotr'.

robin_hood::detail
::rotr
