

apply_permutation

halfidempotent::permute

apply_permutation_pieces

```
graph LR; A[apply_permutation] --> C[apply_permutation_pieces]; B[halfidempotent::permute] --> C;
```

The diagram illustrates a functional dependency or abstraction. Two functions, 'apply_permutation' and 'halfidempotent::permute', are shown on the left. Arrows from both of these functions point to a single function on the right, 'apply_permutation_pieces'. The 'apply_permutation_pieces' box is shaded gray, while the others are white with black borders.
