

operator<<

print_half_idempotent
_relations

half_idempotent_generators
::print

```
graph LR; A[operator<<] --> C[half_idempotent_generators::print]; B[print_half_idempotent_relations] --> C;
```

The diagram consists of three rectangular boxes. On the left, there are two boxes stacked vertically. The top box contains the text 'operator<<'. The bottom box contains the text 'print_half_idempotent' on the first line and '_relations' on the second line. On the right, there is a single, wider box containing the text 'half_idempotent_generators' on the first line and '::print' on the second line. Two blue arrows point from the right side of the left boxes to the left side of the right box. One arrow originates from the right side of the 'operator<<' box, and the other originates from the right side of the 'print_half_idempotent_relations' box.
