

speed\_test

```
graph LR; A[speed_test] --> B[symmp::print_half_idempotent_relations]
```

A diagram showing a call from a function named 'speed\_test' to another function named 'symmp::print\_half\_idempotent\_relations'. The 'speed\_test' box is shaded gray, while the target function box is white. A dark blue arrow points from the right side of the 'speed\_test' box to the left side of the target function box.
